

Team Building Days

ACH continues to offer wonderful **TEAM BUILDING ACTIVITY DAYS** for schools and youth groups throughout the year. We aim to provide young people with the opportunity to take part in outdoor group activities that are challenging and fun.

We are based in the beautiful countryside of The Surrey Hills in Holmbury St Mary, near Dorking. The Team Building Days encourage learning through activity and adventure, showing children that by using their imagination and skills in group situations they can undertake the challenges and successfully complete the tasks. Teamwork, problem solving and good communication skills within each team will be promoted. During the day you will be able to see the development of individual children and observe changing group dynamics.

We are inspected and approved by Ofsted and The British Activity Holiday Association. Each activity has a full risk assessment, safety guidelines and operating procedures. Our staff are teachers, instructors or qualified activity specialists, vetted for their suitability to work with children and dedicated to their well-being and safety.

The programme for the day will be individually tailored to suit the needs of your children. The price is £29 per child per day.

Consider the activities over the page, choose, complete the form and send it to us, or simply ring Marian or Su to book. We will do the rest.

ACH

Are you looking for a Residential Experience?

ACH runs a residential field study centre at the Mill, Forest Green, near Dorking and can organise a residential break for up to 40 people staying with sole use or for even larger groups if you want to incorporate a camping trip. We can organise it all, activities and food, or you can come and look after yourselves. We can customize the activities to suit you. In addition to the Team Building, we can organise pedal go-karting, circus skills, water sports, cycling, orienteering, rambling in the hills, camp fires and much more.

Booking form please complete both sides

THE LOW ROPES CHALLENGE COURSE

Set in a beautiful Rhododendron wood this low level, high impact activity offers the group a number of challenging elements, which will require concentration, develop team skills and create trust. The object is to circumnavigate the complete course without a single member touching the ground.

SURVIVAL SHELTERS

Back to basics for this one. Dropped behind enemy lines, the team must build a structure that will effectively shelter them from the elements, using nothing more than the natural resources available in the woods. This is great for developing leadership skills, for working as part of a group and improving innovation and resourcefulness – immense fun as well!

BOAT BUILDING AND THE GREAT BOAT RACE

The challenge is to build a model boat to race along a 50-metre length of stream. This activity is great fun and very good for developing innovation and dexterity.

THE BRAIN TEASER TRAIL

A puzzle solving activity in the woods. Each team member will be given an object to carry with them which they will use to solve clues in order to move on to the next challenge. The terrain is picturesque and can be steep, rocky, wet and muddy. This is an ideal opportunity to work together.

GROUP DYNAMICS

A set of team challenges requiring a mix of mental and physical effort to complete – often with the increased pressure of a time limit. Stimulates quick thinking, open communication and leadership.

Transport?

We can provide minibus transport to and from the area and for while you are here. Our drivers are the same experienced staff who can be employed as a leaders or additional members of staff.

For more details contact us on 01306 711005 or info@holiday-adventure.com

Adventure & Computer Holidays operate totally independently from any school or educational establishment. We are grateful to them for giving us permission to distribute leaflets.

In making a booking, clients confirm that they have read and agree to ACH's Terms and Conditions (on company website www.holiday-adventure.com) and they have obtained consent for emergency medical treatment for the participants.
